

Dear SNACC Members,

I am attending neuro-anesthesiologist at Toronto Western Hospital, Canada and excited to apply for the Director-at-Large position for the SNACC. I am presently serving as a Vice Chair for the Neuroanesthesia section at Canadian Anesthesiologists' Society.

After finishing my initial neuroanesthesia training from AIIMS, Delhi, I moved to Canada in 2012, and further pursued my neuroanesthesia career at University of Manitoba, Winnipeg for eight years.

I am a SNACC member since 2011. I have contributed as an author/reviewer for our society journal, involved in updating SNACC bibliography, and regularly participated in forum discussions. I am a co-editor of newsletter, Neuroanesthesia section, CAS. In the recent past, I hosted the trainee's welcome reception at SNACC that was much appreciated by all members. I have served as a member on various committees, including clinical affairs and the trainee engagement committee at SNACC, and physician wellness committee at CAS. In addition, I have co-hosted neuroanesthesia quiz for various societies, including SNACC, ISNACC, Neuroanesthesia Update and CAS. In addition, I have contributed as a reviewer for the fellowship accreditation under the International Council for Perioperative Neurosciences Training Program.

With my diverse organizational skills, experience, and passion, I truly believe that I would be able to expand the horizons of SNACC more globally and could initiate many educational activities for our young trainees worldwide. In addition, I would also like to create a work-related physician wellness portal with SNACC.

I am looking forward to serving the society in this new role!

Sincerely,

Tumul Chowdhury, MD, DM, FRCPC
