Anesthesiology and Critical Care
(SNACC)

William L. Young Neuroscience
Research Award Application

2022

The Society for Neuroscience in Anesthesiology and Critical Care (SNACC)

William L. Young Neuroscience Research Award 2022

The William L. Young Neuroscience Research Award provides \$10,000 to support research related to the SNACC mission. SNACC members who are fellows or junior faculty (within 6 years of initial faculty appointment/first independent position after completion of specialty training) at the time of application are eligible. Basic, translational, clinical, or data science projects are all welcome.

Applicants are asked to submit a biosketch (NIH format), an abstract, a three-page research proposal, plus a budget justification. A timeline must be included, as the proposed studies are expected to be completed within a year. As \$10,000 will rarely be sufficient to fully fund a project, additional support by the applicant's department is required. A letter by the applicant's chairperson describing the department's commitment to the applicant and additional funds available for their research must be included in this application. Synergies or overlap with existing funding should be described. Funds from the William L. Young Neuroscience Research Award cannot be used to cover travel or publication costs. Applicants must be SNACC members in good standing at the time of application to be considered for the award. Successful applicants are expected to report on their progress at the end of the award period.

Applications will undergo peer review and be evaluated in the areas of significance/innovation, approach/feasibility, investigator/departmental support, and relevance to the SNACC mission. The 2022 award recipient will be notified in August 2022 and formally announced at the 2022 SNACC Annual Meeting in September 2022. They are expected to attend the 2022 SNACC meeting in person. **No indirect costs are awarded with this grant and registration for the SNACC meeting is not waived.**

Deadline: Sunday, June 26, 2022, 11:59 pm ET

PROJECT TITLE:

APPLICANT INFORMATION

Name: _____ Gender: _____

E-mail: _____

Current status (*choose one*) Fellow Instructor Assistant Professor other (describe)

Date of first faculty appointment/first independent position after completion of specialty training, if applicable:

Citizenship Status (*choose one*) US Citizen Non-US Citizen

Applicant is a current member of SNACC (Yes/No; non-members are not eligible for this award)

Are human subjects involved in this project?

If human subjects are involved, has the institutional review board approved the study? (Yes/No/Pending)

Are animal experiments involved in this project?

If animal experiments are proposed, has the institution's animal care and use committee approved the study?
(yes/no/pending)

APPLICANT INSTITUTION

Name: _____

Street Address: _____

City: _____ State: _____ Zip: _____

Telephone: _____ Fax: _____

SIGNATURES

By signing below, I hereby attest that information contained in this application is accurate and true.

Signature of applicant _____ Date _____

Signature of financial officer _____ Date _____
(of the applicant institution)

ABSTRACT OF PROPOSED RESEARCH

Briefly describe the research project, including technical approach and anticipated results. Describe how this project will advance the field of neuroscience in anesthesiology and critical care *Page limit half-page, 11 size font, single spaced.*

BUDGET JUSTIFICATION

Briefly describe how the awarded funds will be spent. Comment on overlap with existing funding. *Page limit half-page, 11 size font, single spaced.*

BIOGRAPHICAL SKETCH

Provide the following information for the applicant.
DO NOT EXCEED FIVE PAGES.

NAME:

POSITION TITLE:

EDUCATION/TRAINING *(Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.)*

INSTITUTION AND LOCATION	DEGREE <i>(if applicable)</i>	Completion Date MM/YYYY	FIELD OF STUDY

A. Personal Statement

B. Positions and Honors

C. Contributions to Science

D. Research Support

RESEARCH PROPOSAL

Include Background, Specific Aims, Preliminary results if applicable, Approach and Expected Results. Include a Timeline. *Page limit 3 pages, 11 size font single spaced. References are not included in page limit.*

LETTER OF SUPPORT BY DEPARTMENT CHAIR

Briefly describe departmental support for the applicant's research and the proposed study.
